Hispanic Minority Owned

Capabilities Statement:

Data Glue is a leading provider of comprehensive data management and analysis solutions for commercial and government customers. Our team of certified data and cloud engineers, based in Hollywood, Florida, work alongside experienced managers to design and build systems that integrate and analyze data from multiple sources. We are excited to announce our new capabilities in Electrical Vehicle (EV) chargers data and integration, making us a one-stop-shop for all of your EV chargers data.

Core Competencies:

- Data management and analysis solutions
- Comprehensive data integration
- Artificial intelligence & machine learning
- Big-Data, high-performance computers, and large-scale systems
- Electrical Vehicle (EV) chargers' data integration
- Real-time analytics & dashboards

Success Stories:

Fraud Detection: Developed a machine learning credit-card fraud detector for identifying fraudulent transactions in real-time

Cloud Migration: Migrated more than five hundred (500) applications for a financial firm from on-premises to a public cloud service

Data Management: Completed an event driven pipeline that ingested billions of events and applied a business rule engine to autonomously determine outcomes
